Our vision statement details the aspirations of our organization

Our mission statement defines our business, our objectives, and how we will achieve them

Creating business value through the
most efficient and effective
communication solutions

VISION AND MISSION

Our passionate team works with clients
to create real value for them. We deliver
this value by providing the most efficient
and effective communication solutions.

We strive to build lasting relationships
with our clients, employees and vendors
based on integrity and trust.

A visual identity provides a consistent design idea and allows us to:

- Express our brand's colour palette ●
- Convey a sense of bold direction and momentum ●
- Create a vehicle for human brand messaging ●
- Offer a framing for and interaction with our inspiring imagery ●

VISUAL IDENTITY

Our visual identity system is formed by 6 core elements: Our logo, colour palette, unique pattern, typography, photography and iconography

Logo

ABC Pattern

Typography

Photography

Iconography

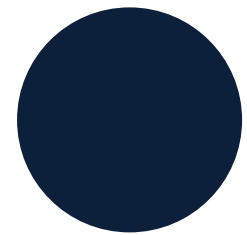

Our distinctive logo

Our logo needs to be present across all our communication. The electric colour of the logo needs to be instantly recognisable to anyone who sees our communication

The logo is made up of the following colours:

Future ready Midnight Blue

The symbol consist of the 'F' on Future ready, with a slight tilt

Brand logo

The logo is in one solid colour which is Future ready Midnight Blue. This colour suggests trust and reliability.

The logo is minimalistic and conveys elegance and confidence.

The 'F' symbol is the highlight of the logo. While being simplistic, it has its own unique identity and is easily identifiable.

Logo usage

Restricted usage

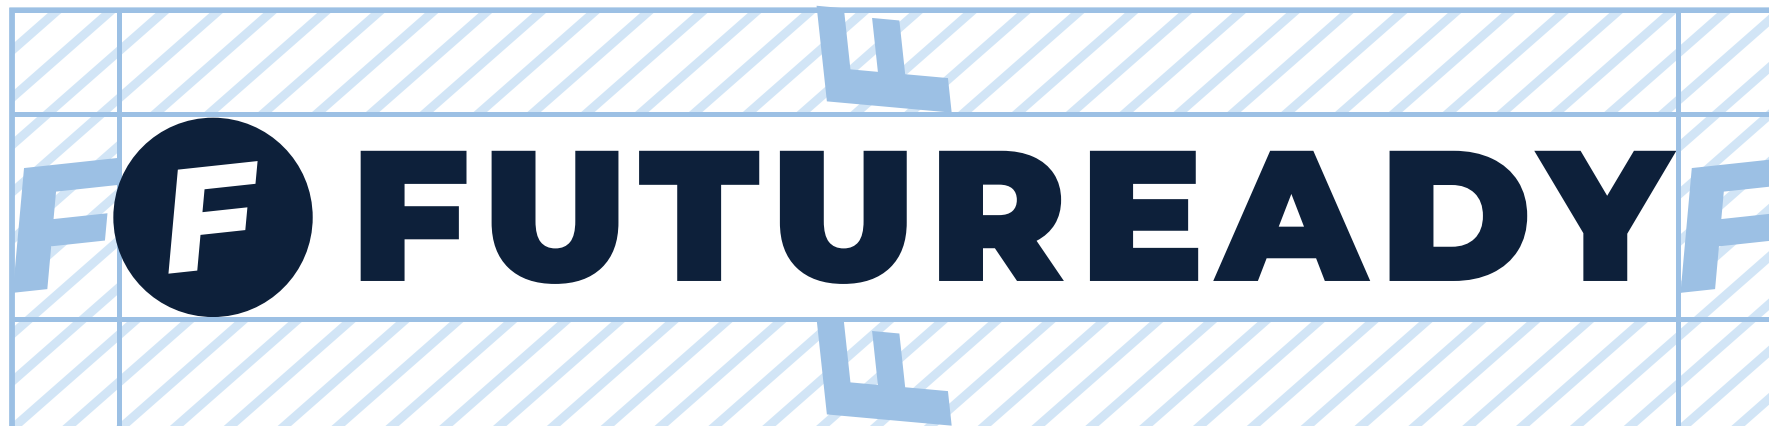

Variations

The logo may be placed on a photograph only if the image has a clear area and the image colour is neutral and offers good contrast with the logo.

The white logo variation should ideally be used only when the background is in Futuredy Midnight blue, however exceptions can be made if the background colour is one of the primary colours.

Clear space

A minimum clear space area has been defined to help maximise the impact and clarity of the Futuready logo. Graphic elements, including other

Minimum size and small-use

Primary usage

Small-use logo

Favicon

The minimum height of the logo is 11mm. Below this size, the symbol 'F' becomes less visible

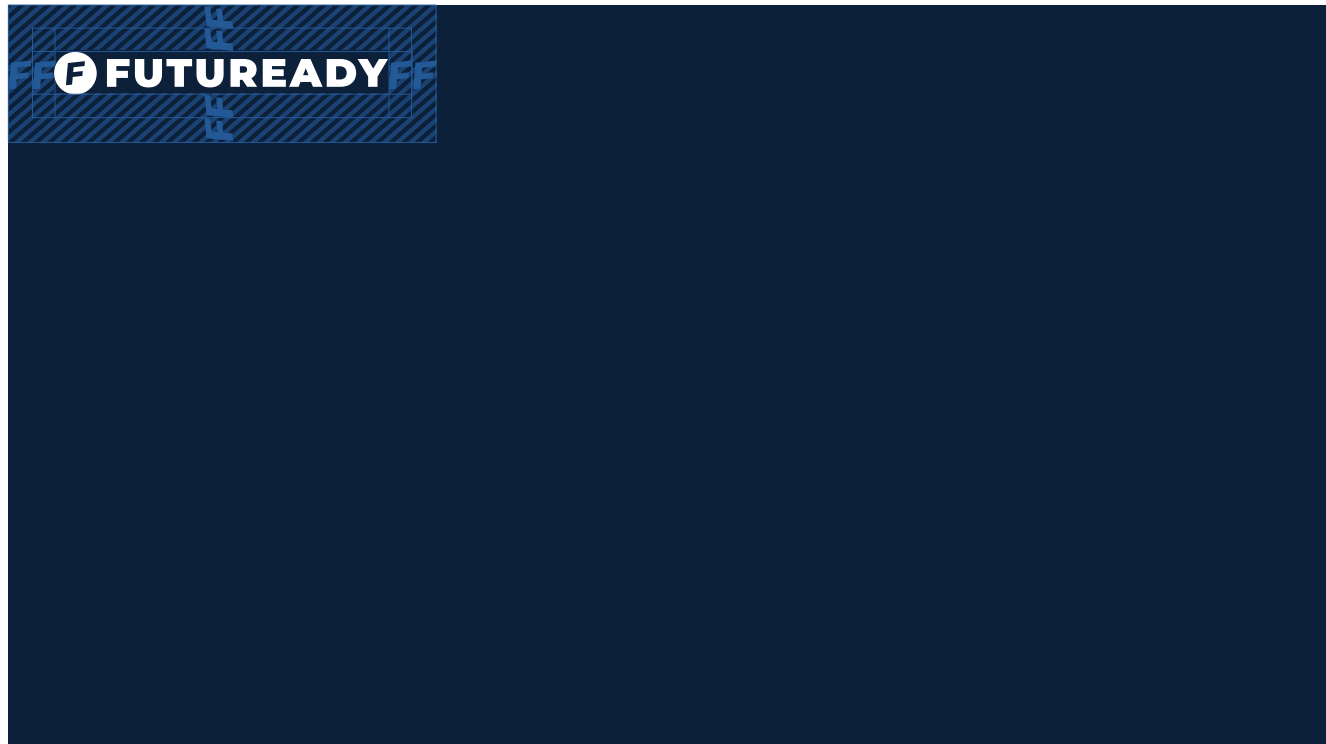

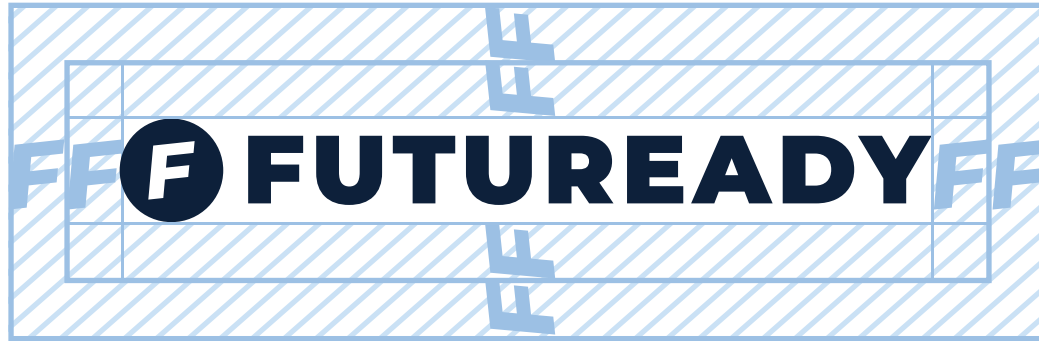

To ensure legibility, the small-use logo has the symbol on the top in a minimum of 11mm and text in a minimum of 5mm below it. Below this size, the logo is not clearly visible.

For Favicon, the symbol can be used at a minimum of 11mm

Placement

When applying for standard print formats, an additional clear space can be applied

As indicated here with 2x the 'F' width, allowing for a more considered placement of the brand logo with a greater visual impact whilst offering an alignment with messaging that remains clear from the edge of the canvas

Do not

use the logo on dark blue

use the logo without sufficient contrast

use the logo on a heavy graphic

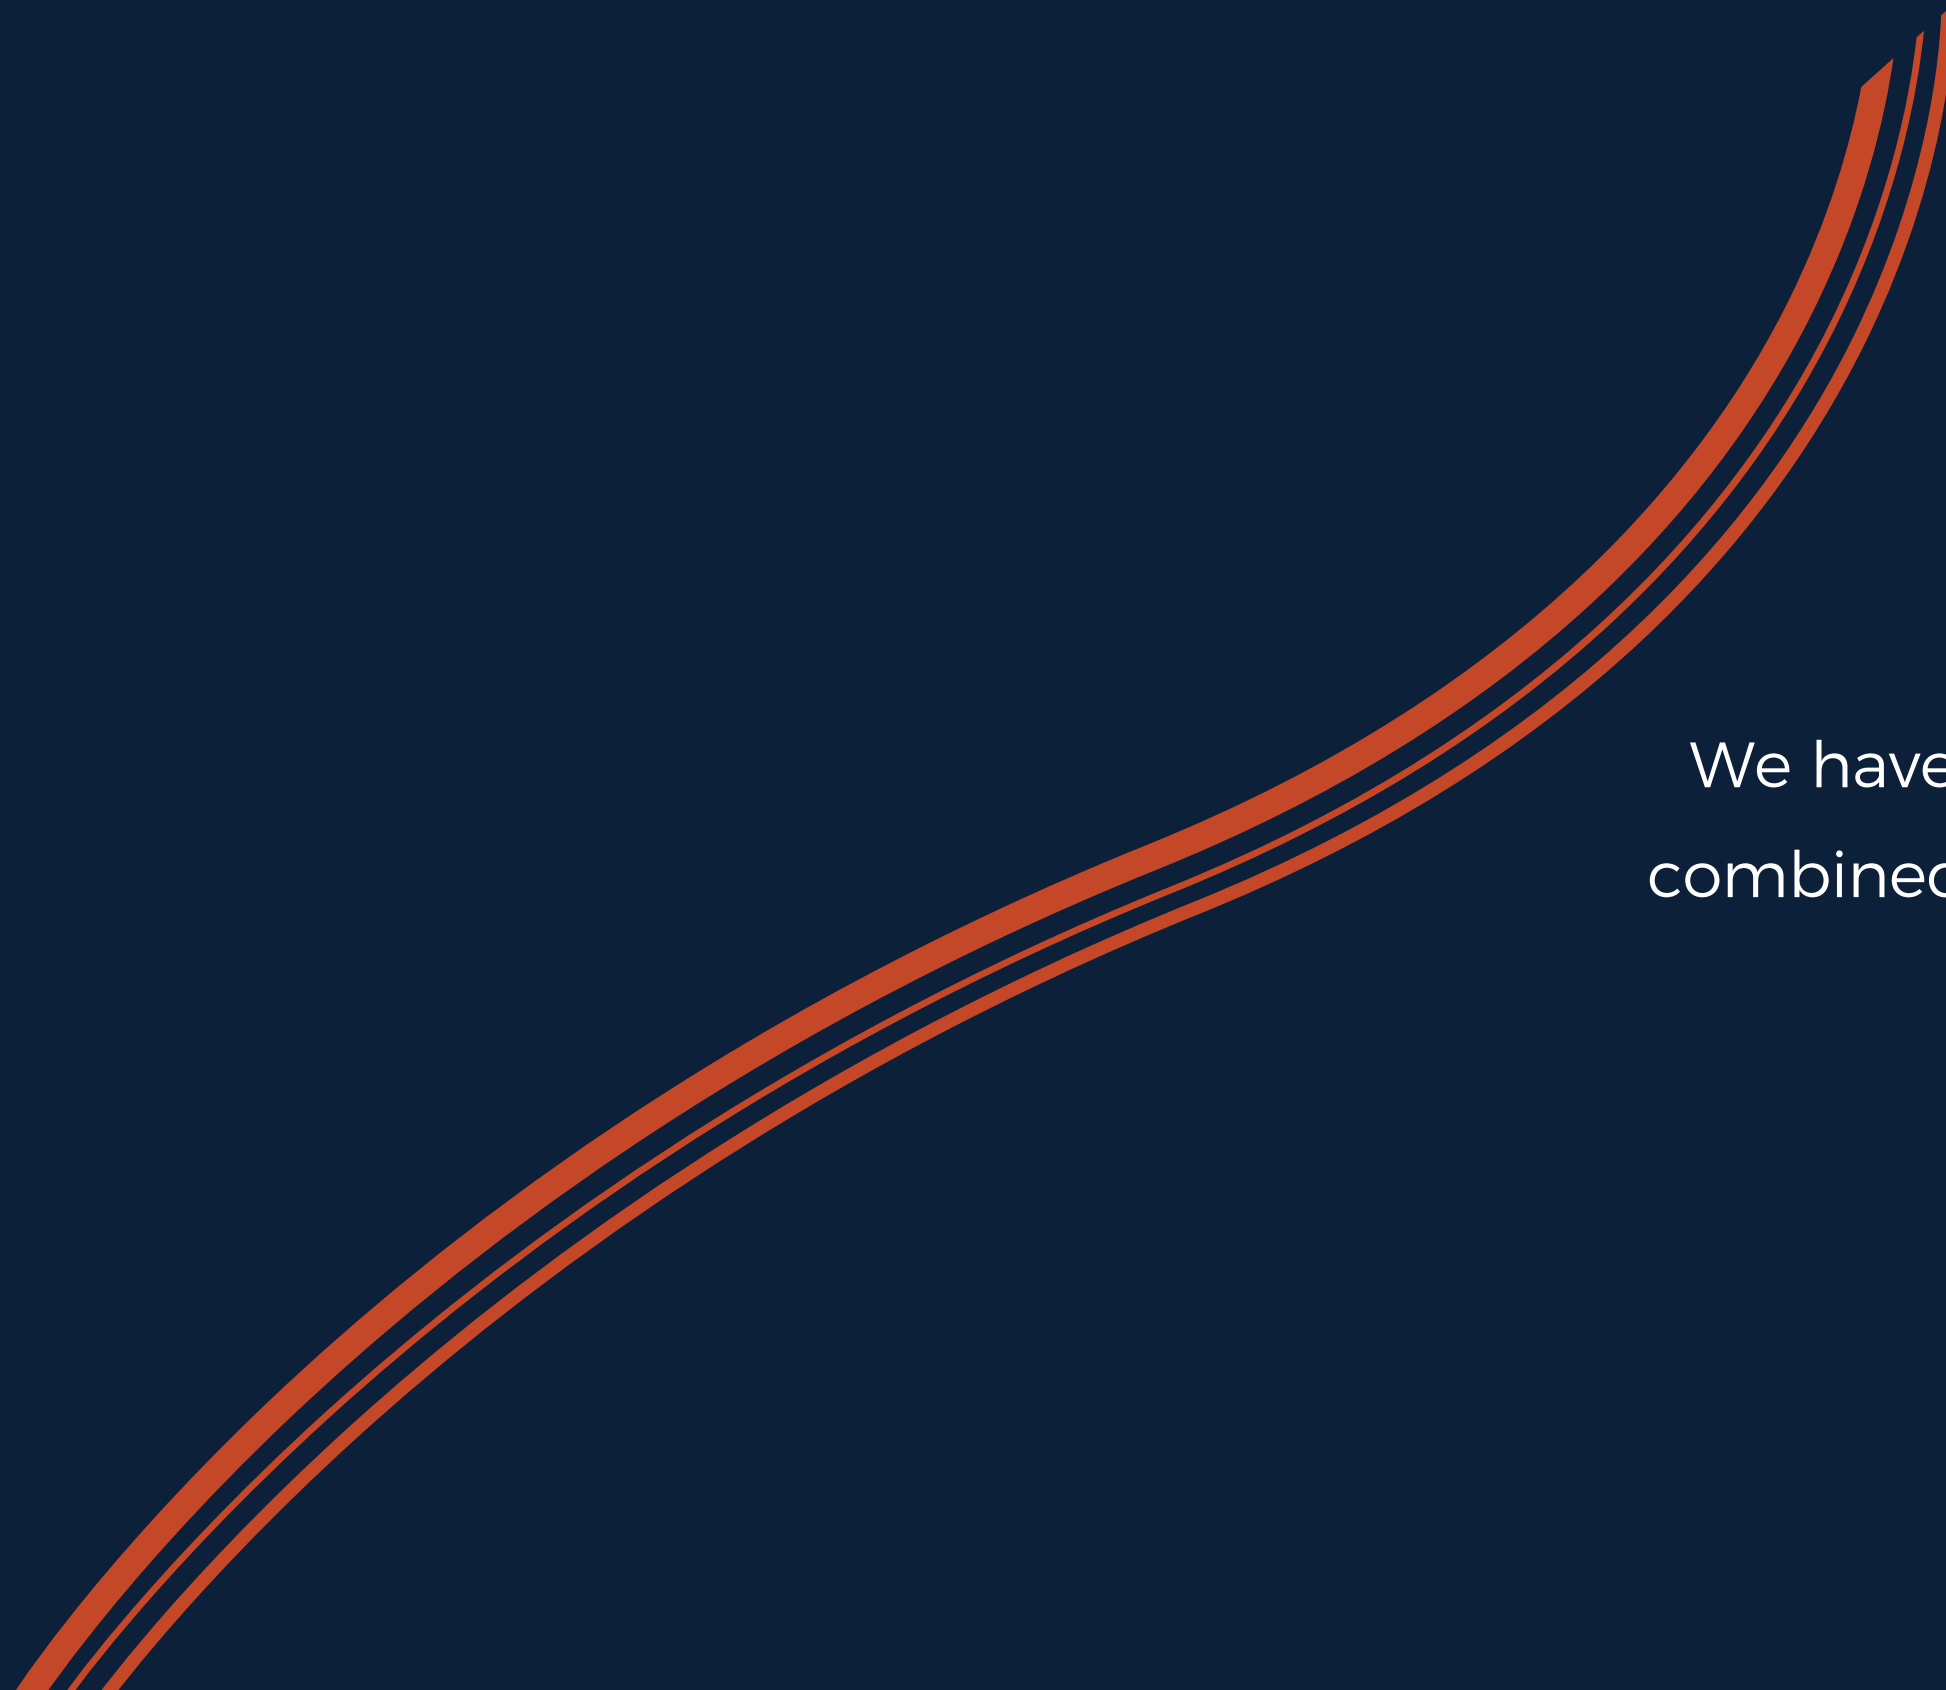

tilt the logo

stretch the logo

reduce opacity of the logo

Expressing our brand with a confident application of colour

We have a bold and distinctive colour palette. The combined use of our colours strongly reinforces our brand personality

COLOUR PALETTE

Primary
Colour Palette

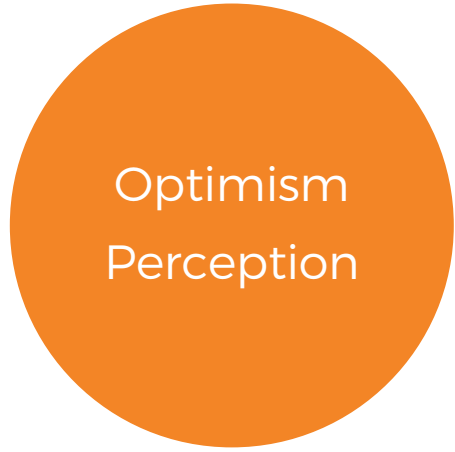

The Futuready colour palette is made up of 3 primary colours. The midnight blue is related to the Agency and conveys trust and reliability. Orange is related to the Business and conveys happiness and positivity. Yellow is related to the consumers and conveys optimism and perception.

**We have a distinctive
ABC pattern of 3 Parallel lines
that are easily recognizable**

Our pattern acts as a beacon for our brand.
Taking shape through bold and expressive forms
that offer dynamic curves and bring purpose
to our designs

ABC Pattern

The ABCs of any Marketing entity is very simply the Agency's understanding of the Business of their client, and the understanding of the Consumers they cater to.

We understand this assignment; and deliver custom tailored strategic solutions, this three-way relationship between the Agency, Businesses and the Consumers is key to unlocking unlimited potential for any brand or product.

In this Relationship, The Agency takes the Business to the Consumer - ^{Future ready} We get it done
^

PATTERN

Do

use the pattern from left to right, showing forward movement

ensure that when the pattern is used in a circular format, it always end upwards showing growth and progress

ensure the diagonal pattern always face upward

use the pattern in a free flowing format as long as it is moving forward or upward

PATTERN

Do not

use the pattern from
right to left as it indicates
backward movement

use the circular pattern in
the downward direction

use the pattern in the
backward direction

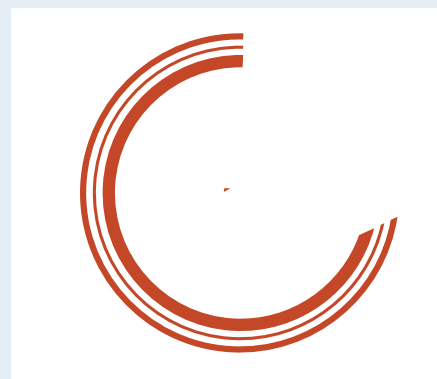

use the free flowing pattern
in the backward direction

Colour variations

Use the midnight blue colour pattern on a background of any other Futuready colour

Use the Futuready orange colour pattern on a background of any other Futuready colour

Use the Futuready yellow colour pattern on a background of any other Futuready colour

Use the pattern in a secondary colour on a background of any other Futuready colour

Only for festivals and special days you can change the colour of the pattern

Typography with clarity and impact

AaBbCc

Typography is an important tool to support our communications and inspire the people we serve. Our fonts must be clear and concise to enhance our visuals and bring greater legibility to our brand messaging

Primary font

Montserrat Light

Montserrat Regular

Montserrat Medium

Montserrat Bold

Montserrat ExtraBold

Brand fonts

The Futuready typeface is Montserrat. It has a complete family of weights that range from Light to Extra Bold.

The various family weights offer flexibility in communication where different quantities of text and tones are required. Careful selection is required with appropriate application of legibility, impact, and tone of voice

Secondary font	Application
Helvetica 55 Roman	Headline / Subline / Quotes
Helvetica 65 Medium	Headline / Quote
Helvetica Bold	Headline
Helvetica Heavy	Headline

Secondary fonts

Our secondary font is Helvetica.

It has a complete family of weights that range from Regular to Heavy.

Principles and tones for photography and illustrations

Our photography needs to be inspiring and Bold. It shouldn't be too cluttered but should convey our message in a single bold image. Our illustrations shouldn't be 2D and cartoonish. It needs to be sophisticated and clean.

PEOPLE

Use photos with smiling faces
People facing the camera
Clean and solid backgrounds

WORK

Clear focus on the creative
Ensure maximum visibility
Clean and solid backgrounds

EVENTS

Use photos with smiling faces
People facing the camera
Can have busy backgrounds

PHOTOGRAPHY AND ILLUSTRATIONS

Types of photography

Our photography should reflect our personality. We have explored Futuready's photographic approach across three key subject matters, to give a cohesive sense of how the brand ethos can be brought to life through people, our work and our events.

PHOTOGRAPHY AND ILLUSTRATIONS

Integrated imagery

The pattern and imagery need to complement each other to create distinctive visuals.

incorporate the pattern around the individual to show that he blends in well with the focus of the organisation.

Use short and bold copy

For brand collaboration, use the pattern to denote unlimited potential to be explored between the Agency and the Business. If the pattern is being used do not use both the symbol and the logo text.

You can use either one.

PHOTOGRAPHY AND ILLUSTRATIONS

when showcasing work, use subtle backgrounds, the pattern can be used to denote a smooth relation between the agency and the brand

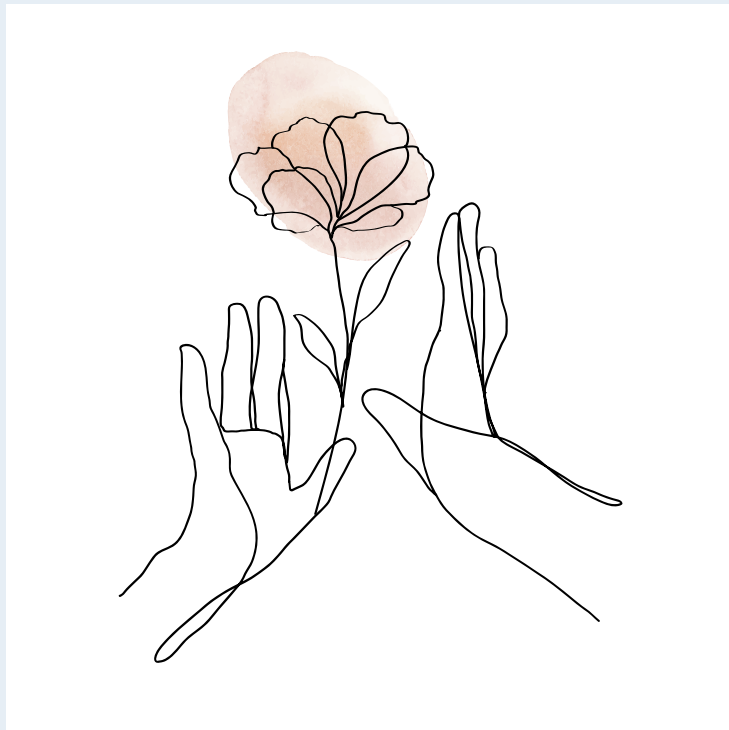

when showcasing a team photo/event photo the ABC pattern can surround them so as to indicate that the individuals are in harmony with the company values

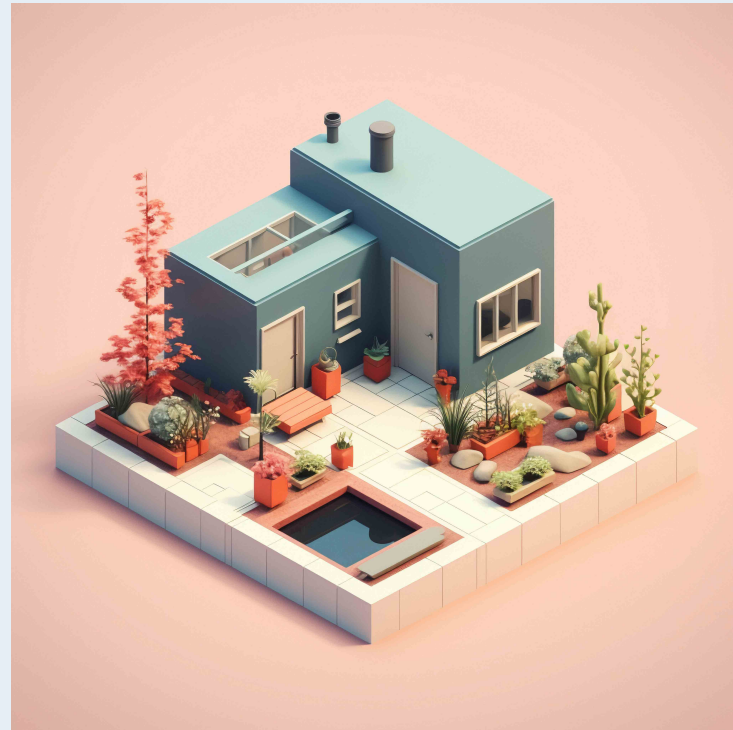

when using a icon that is in the style of the pattern, you don't need an additional pattern in the background. The focus should be the icon

Types of illustrations

Linear Art

3D

Abstract 3D

3D human characters

The icons used in all communication need to follow a set pattern

Our icons use the ABC pattern to create a
captivating visual that cannot be found anywhere else
